#### Estimated Income of District

Balance June 30, 1933 (Estimate)	\$1,111.48
State Aid (December 1933 Allotment)	769.10
Dog Tax (Estimate)	100.00
—————	
Deduct Total Estimated Income (Not raised by taxation)	\$1,980.58
Assessment required to balance school board's budget	\$2,693.62

We have made a careful study of the budget for next year and have made reductions in nine items. We have made increases only in the following items: Transportation was increased because it is necessary to transport Fleurien Defossi, who lives in the Oregon district, to Littleton. It was necessary to pay his tuition, which increases the amount of item 17 by \$50. We have actually been spending both these amounts during the present year. It is estimated that the high school tuition will cost \$610, which is an increase of \$40 over the cost this year. During the past two years we have been spending \$10 for the use of Mr. Santy's land for a playground at the Tinkerville school. This should have been included under item 18 last year, but was omitted by error. This makes item 18 five dollars more than for this year.

We feel that it is not wise to reduce the State Aid items of the budget further, because it will reduce the aid received from the State by the same

amount. For example, if the State Aid items are reduced \$200, the amount received from the State would be \$200 less, so that we would actually have \$400 less money to use for our schools.

We recommend that the school district raise and appropriate the sum of \$2,600 for the coming school year.

Respectfully submitted,  
DANA L. HUBBARD,

### SUPERINTENDENT'S REPORT

---

To the School Board and Citizens of Lyman:

The total enrollment in your schools last year was 56. The average membership was 52.9 and the percent of attendance 88.33. This is about 3.5 per cent less than last year and is far below the state average. It is true there was more than the ordinary amount of illness during the year, but I believe that much of this absence was unnecessary. If pupils are to make regular progress in our schools, it is essential that they be present every day unless detained by sickness. If they are absent they can never fully make up all they have lost. The attendance record for the first three months this year has shown great improvement especially in the Tinkerville school, where the percent of attendance has averaged 98.3. January has brought much illness, but I hope that the average at the end of the year will be well over 90 percent.

The enrollment this year is 59. Parker Hill has 34 and Tinkerville 25. There are four pupils attending high school at Lisbon and one at Littleton.

Much needed repairs were made on the Parker Hill school house last summer. The shed was enlarged and the toilets improved. The latter are still far from satisfactory, due to the condition of the land. The only thing that will probably be satisfactory on this location is chemical toilets.

Another much needed improvement in your schools was made by replacing the old double desks with single ones bought second-hand from Monroe.

These desks were almost new and were purchased at a very low price. Two good slate blackboards were also purchased with the desks.

You have been fortunate in being able to retain your two experienced teachers for another year. They are both doing very efficient work.

I have introduced a new reading system into the first grade. The work is very carefully outlined for the teacher and the results obtained indicate that it is a great improvement over the methods used in previous years. The teachers are also following a definite and uniform system of handwriting.

I certainly appreciate your cooperation in all matters pertaining to the welfare of your schools.

Respectfully submitted,

F. LESTER TRAFTON
